

My Nature Poem

I live in the desert.

Saguaros everywhere

Rattlesnakes slither and the coyote howling up in the air.

The Sonora desert is unique

because we have green mesquite and brown tumble weeds

Prickly pear is green

Palo Verdes' flowers are brilliant yellow

if you are new to the desert

Watch out for the rattle!

During the day, the sun so bright

But at nighttime we have a one of the most beautiful

Shining moons.
