Sonoran Desert is super cool

Of every place this one rules

Never ending animals all name them all

On the mountain top the coyotes call

Really love the rattie snakes

great place to awake

Now the sun is super strong

Do go on a hike there great

Every day is super don't get up late.

Sharks grow and you can't go

eggs of haming birds in there nest

ready for night when some animals rest

Tortise crawling im not staying you must come today.
