dead

Name: _____

The saguaro is the perfect plant for a

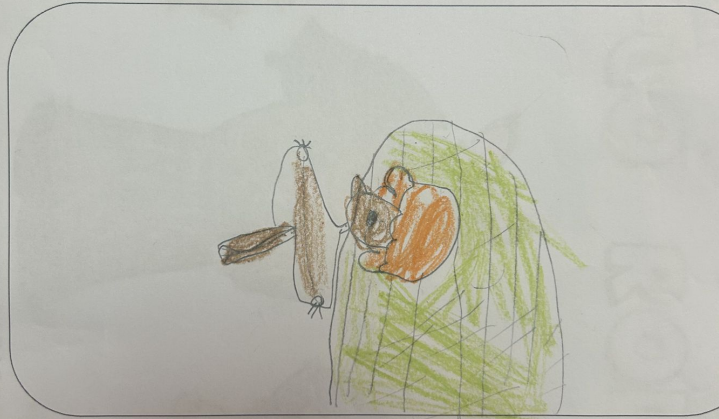

Gila Woodpecker because

it can make a nest in the cactus for its

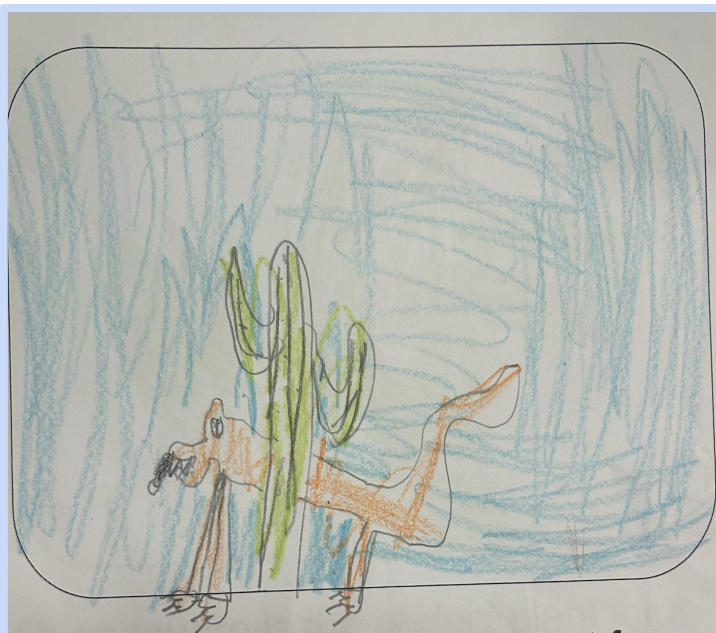

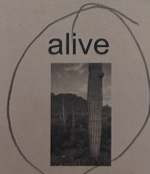

babies. It can eat the fruit, too.

My organism is the Long-nosed bat.

Here is a picture of how it uses a saguaro:

My organism uses the saguaro when it is (circle one):

The saguaro is the perfect plant for a

coyote because
they grow a
saguaro!

The saguaro is the perfect plant for a

Insects and Arachnids because
when that saguaro
dies the insects and
Arachnid eat.
